**NBN Co Limited**

**Hansard Ref: Written, 14/03/2017**

**Topic: Cost per Premises – FTTdp**

**Senator Urquhart, Anne asked:**

What are NBN Co's current assumptions about the disaggregated design and build costs for FTTDp? Please complete table below.

$A + B + C = \text{CPP for FTTdp}$

|       | <b>Design (A)</b> | <b>Build (B)</b> | <b>Duct Lease<br/>(C)</b> | <b>CPP</b> |
|-------|-------------------|------------------|---------------------------|------------|
| FTTdp | ?                 | ?                | \$700                     | ?          |

**Answer:**

Contracts in respect to the Design and Build of the FTTC premises are still under negotiation with delivery partners, and to indicate our forecast costs would jeopardise the commercial outcome of those negotiations for nbn. These forecasts are therefore commercial in confidence.
