Question No: 113
Hearing: Additional Estimates
Outcome: Outcome 2
Program: Domestic Emissions Reduction Division (DERD)
Topic: Climate models
Hansard Page: -
Question Date: 27 February 2017
Question Type: Written

Senator Roberts asked:

How do you explain the growing body of evidence that climate models predict too much warming from increased atmospheric carbon dioxide?

Answer:

Recent scientific studies into the accuracy of climate models have found that climate predictions and projections are consistent with observations and measurements.
