**Question No: 110**

**Program No. nbn**

**Hansard Ref: Page 93, 28/5/2015**

**Topic: FTTN rollout**

**Senator Conroy, Stephen asked:**

When do you envisage you will get the FTTN rollout to full speed? The strategic review says 2018 on page 96. Is that still the forecast? The FTTN rollout to full speed; you said 2018 on page 96. Is that still the forecast?

**Mr Adcock:** We are escalating through 2016, 2017 and 2018. At this point 2018 is still peak in our plan.

**Senator CONROY:** So, how many premises do you forecast will be passed with FTTN by the end of the calendar year?

**Mr Adcock:** The calendar year?

**Senator CONROY:** Yes, December.

**Mr Adcock:** I will come back to you on that because we work in financial year to financial year and again, passed. I want to be very careful because I do not want to go down this path again. with standing nodes for premises able to be served.

**Mr Morrow:** This is part of our corporate plan that we have to have a period before we can declare what our use of the plan is.

**Answer:**

The number of premises forecast to be passed by the end of calendar 2018 is currently not available, as nbn has not released its 2015-2018 Corporate Plan.
