Environment and Energy portfolio

Question No: 221
Hearing: Budget Estimates
Outcome: Agency
Program: Clean Energy Finance Corporation (CEFC)
Topic: Carbon Capture and Storage
Hansard Page:
Question Date: 07 June 2017
Question Type: Written

Senator Urquhart asked:

Is Carbon Capture and Storage (CCS) a technology that is currently commercially viable in Australia?

Answer:

Given it is a technology that is currently prohibited under our enabling Act, this question is best answered by research and industry experts such as the CSIRO, CO2CRC and Global Carbon Capture and Storage Institute, or project sponsors themselves, as the CEFC has had limited exposure to CCS projects.
