Topic: MDU take up

Senator Conroy asked:

Coming back to what I was trying to get to was how many premises within the MDUs. Were there 10 in some, or 100? I am just trying to get a total number of units, flats, or whatever you call them.

Mr Simon: I will take it on notice, but I will give you what I believe is a rough figure. I think that the MDUs that we have connected are roughly 100 end-user premises each, on average.

Answer:

The Multi Dwelling Units (MDU's) in the first phase of the High Value MDU program contained an average of 140 End User Premises each.
