**Senator Urquhart asked:**

The proponent's Environment Impact Statement suggests at completion of this development, water quality of the land-based run-off will have improved. Can the Department please provide any evidence of this suggestion?

**Answer:**

The Environmental Impact Statement (<http://www.dsdip.qld.gov.au/assessments-and-approvals/projects-environmental-impact-statement.html>) addresses water quality issues in chapter 11 and this will be assessed as part of the Queensland Coordinator-General's assessment.
