  - No.
690. The Commission is seeking to reduce its staffing by approximately 25 full-time equivalents in order to continue to deliver its core functions within reduced budget levels in future years. This is to be achieved through natural attrition and voluntary redundancies. The reduction in budget levels is associated with withdrawal of funding for reviews and other research linked to the carbon pricing mechanism, as well as increases to the efficiency dividend and other across-the-board savings.
