Australian Institute of Marine Science (AIMS)

1. 296 laptops are currently issued to AIMS staff as at 20 June 2017.

AIMS' policy is to provide appropriate computer facilities for staff to achieve their work objectives and responsibilities and to ensure that AIMS acquires the maximum value from the asset. Due to the mobile nature of the AIMS workforce and the remote location of the AIMS sites, laptops are the standard issue computers for all staff.

AIMS maintains a contract with DELL to supply laptops under a preferred supplier arrangement at favourable rates. Current standard models available for purchase are as follows:-

- DELL Latitude E5470
- DELL Latitude E5285
- DELL Latitude E7270

It is the current policy that laptops are upgraded every four years. Purchases and replacements are managed via a formal purchasing system requiring authorisation at senior levels of the organisation.

AIMS considers that providing answers to the remaining questions would be an unreasonable diversion of resources.
