Department of Education and Training Question No. SQ17-000376

Senator Collins, Jacinta provided in writing.

Students with disability

Question

What is the fixed price per student, at each level of adjustment, used to calculate the NCCD informed loading in 2016 and 2017?

- a. Is it the same fixed price for every state and system?
- b. How did you determine the appropriate fixed price per student at each level of adjustment?

Answer

The fixed price per student is based on Education Council-in-confidence research.

In calculating the Nationally Consistent Collection of Data on School Students with Disability informed loading, the same per student amounts were used for each state/territory and system.
