Department of Education and Training Question No. SQ17-000514

Senator Collins, Jacinta provided in writing.

Actual and projected percentage funding increase for each approved authority year by year over the period 2014 to 2020

Question

What is the actual and projected percentage funding increase for each approved authority year by year over the period 2014 to 2020?

Answer

The table below shows the percentage change in total Commonwealth recurrent funding entitlement for each Approved Authority (AA) for 2014 to 2017. Projected funding amounts from 2018 have not been provided. The Australian Government will release its position on school funding from 2018 in due course.

Notes:

- These figures are based on recurrent funding calculated under divisions 2 and 5 of part 3 of the *Australian Education Act 2013*, or under part 4 of the Act. They do not include other Commonwealth funding such as the Indigenous Boarding Initiative.
- Figures represent total funding, not per student funding.
- Changes in funding from year to year are influenced by changes to enrolments and the characteristics of students attending the schools operated by the AA.
- 2017 figures were derived using estimated entitlements for 2017.
- 2014 figures were derived using the 2013 funding amounts worked out for the purpose of determining the old per student amounts under section 58 of the Act. This may have included funding other than general recurrent funding.
- Figures are based on data extracted from the department's payment system on 15 March 2017.
