Schools funding – size and location loadings

Question

How many schools in each state and territory (by number and proportion) are eligible to receive the size loading and the location loading? Please also split by sector in each state and territory.

Answer

The table below estimates the number of schools that will attract the size loading and location loading in 2017 as at the 2017–18 Budget. The proportion of schools attracting each loading is based on the total number of schools in the relevant state/territory and sector.
