**Question**

**Existing Resources Program**

Since Budget Estimates in June, 2014:

1. How many projects, work, programs or other tasks has the department started as a consequence of government policies or priorities that are required to be funded 'within existing resources'?
2. List each
3. List the staffing assigned to each task
4. What is the nominal total salary cost of the officers assigned to the project?
5. What resources or equipment has been assigned to the project?

**Answer**

The department manages its resources flexibly to meet the Government's priorities. The Government has provided additional resources as set out in Budget Paper No 2 each year, which lists the financial impact of new measures. Where no additional resources are provided the department implements new policies and priorities within existing resources. To collect the information on staffing and other resources assigned to each of these programs and policies would be an unreasonable diversion of departmental resources.
