ETHICAL STANDARDS

In line with the *Public Service Act 1998*, FWBC and its staff uphold the highest ethical standards. These standards are communicated to staff through the APS Values and Code of Conduct, which are published on the FWBC website and Intranet and are included in job information kits provided to prospective employees. They are explained to new staff in Induction programs and underpin the Business Plan and a number of internal policies and procedures, including:

- breaches of the Code of Conduct
- email and internet use protocol
- conflict of interest policy
