

Senate Standing Committee on Education and Employment

QUESTIONS ON NOTICE Supplementary Budget Estimates 2016 - 2017

Agency - Comcare

Department of Employment Question No. EMSQ16-001007

Senator Marshall provided in writing.

Question

Comcare - Key Performance Indicators for APS Agencies in Health and Safety and Workers' Compensation

- What are the Key Performance Indicators (or Determining Authority Key Performance Indicators) for Australian Public Service Agencies in Health and Safety and Workers Compensation?
- What is the performance of each agency against these Key Performance Indicators (or Determining Authority Key Performance Indicators) for each quarter of the last five financial years?

Answer

Comcare does not set Key Performance Indicators (or Determining Authority Key Performance Indicators) for Australian Public Service Agencies. Comcare sets performance measures for its own performance in claims and liability management for Australian Public Service Agencies and these are documented in the Comcare Corporate Plan with performance detailed in our Annual Report.

Comcare does publish some information on claims incidence across Australian Public Service Agencies and premium rates for these agencies on the Comcare website – refer:

For claims incidence:

http://www.comcare.gov.au/the_scheme/premium_paying_agencies/employer_claims_performance

For premium rates:

http://www.comcare.gov.au/the_scheme/premium_paying_agencies/employer_premium_performance
