2. What percentage of applications to the FWC are from:

- a. ATSI people
- b. CALD people
- c. Regional/rural/remote people
- d. Women
- e. Men

Answer

The Fair Work Commission does not collect personal information of this kind through its enquiry channels.

Some of this personal information about applicants is collected in application forms but is not entered into the case management system in a way that enables it to be readily extracted. It would be an unreasonable diversion of resources to extract the available information.
