**Question:**

What was the breakdown of service size, community versus private, Indigenous versus non-Indigenous, local service versus state or nationwide organisations that were successful under the IAS?

**Answer:**

The percentage breakdown of organisations that were successful under the IAS for Indigenous vs non-Indigenous is as follows:

Indigenous: 462 Organisations (46% )

Non-Indigenous: 534 Organisations (54%)

Analysis of the breakdown of service size, community versus private, local service versus state or nationwide organisations that were recommended under the IAS has not been undertaken. To attempt to provide this information would be an unreasonable diversion of departmental resources.
