Question:

Senator GALLAGHER: Just out of interest, what are the vehicle needs, in terms of what you purchase every year?

Mr Sheridan: We purchase quite a wide range of vehicles, from cars to utility vehicles and larger vehicles in certain circumstances. The fleet is quite diverse.

Senator GALLAGHER: Do you have an average volume per year?

Mr Sheridan: I could provide that on notice. I do not know the figure off the top of my head.

Senator GALLAGHER: For the previous financial year, 1 July 2015 to 30 June 2016, what was the proportion of Australian made passenger vehicles?

Mr Sheridan: It is knowable, and we can provide that on notice.

Answer:

On average the Australian Government Fleet takes delivery of 2,973 vehicles per year.

During the 2015-16 financial year, the Australian Government Fleet took delivery of 1,625 passenger vehicles. Of these, 1,271 (78.2%) were Australian-made.
