

SENATE STANDING COMMITTEE ON LEGAL AND CONSTITUTIONAL AFFAIRS
BUDGET ESTIMATES 2017

Australian Federal Police

Question No. BE17-057

Senator McKim asked the following question on 25 May 2017:

Mr Colvin: We certainly have infrastructure development projects with the RPNGC. Most of those have been completed.

Senator McKIM: Thank you, Commissioner. I was going to ask that as my next question. Do you have a list of the infrastructure projects that have been funded by AFP through that program?

Mr Colvin: We certainly do, but we do not have them with us.

Senator McKIM: Could you please provide that on notice.

Mr Colvin: Yes.

Senator McKIM: One of them was a swimming pool at the Bomana RPNGC police college.

Mr Colvin: I believe we paid for the refurbishment of the RPNGC mess, which included an outdoor area and refurbishment of a swimming pool.

Senator McKIM: Do you have the cost of the swimming pool and the broader project?

Mr Colvin: We would have the cost of the broader project, absolutely.

Senator McKIM: Do you have that here?

Ms Close: We will take that on notice.

Senator McKIM: Just for clarity, what I am asking for is a breakdown of all the infrastructure projects that have been funded by AFP through that project, and, specifically, in relation to the college at Bomana, as a sub-line item if you like, the cost of the swimming pool.

Mr Colvin: There has been quite a bit of refurbishment of the college of Bomana. We can certainly do that.

The response to the honourable Senator’s question is as follows:

	2013/14 \$'m	2014/15 \$'m	2015/16 \$'m	2016/17 YTD \$'m	Total \$'m

PNGK-AUD Exchange Rate used

2.39

The table shows all PNG infrastructure projects over the last 4 years (with spending by year). These were originally paid in PNGK and have been converted to AUD at the current exchange rate. The “swimming pool” project is highlighted in the table¹.

¹ Refurbishment of the Bomana pool will assist the RPNGC reintroduce mandatory water safety and rescue training for recruits.
