**(BE17/014) - Manus Good Friday Incident - Comcare notification - Programme 1.5:  
IMA Offshore Management**

Senator McKim, Nick (L&CA 52) asked:

Senator McKIM: Does the report to Comcare confirm that shots were fired actually into the centre as opposed to into the air?

Mr Pezzullo: I think it referred to a shooting incident, did it not?

Mr Venugopal: That is precisely the case. It does not go into the detail of the angle of the shooting or anything as such. It refers to the fact that there was an incident, shots were fired and the time at which it occurred. But I do not have the actual notification at hand.

Mr Pezzullo: I think it might assist the committee if we review the notification. We might confer with our colleagues over at Comcare—sort of notification to them—and come back to this committee during these proceedings.
