**ANSWERS TO QUESTIONS ON NOTICE**

Supplementary Budget Estimates November 2014

**Agriculture**

**Question: 84**

**Division/Agency:** Exports Division

**Topic:** LATSA program

**Proof Hansard page:** 88

**Senator RHIANNON asked:**

**Senator RHIANNON:** As well as providing what the acronym stands for could also provide details of that program—what it is?

**Dr J Cupit:** Yes, I am pretty sure we can.

**Senator RHIANNON:** Okay, if you could take that on notice please.

**Dr J Cupit:** Yes.

**Answer:**

Live Air Transport Safety Assessment (LATSA) is a software program designed to ensure the ventilation on an aircraft is sufficient for the livestock load.

LATSA takes the livestock loaded and calculates the ventilation requirements. It then compares this against the pre-loaded ventilation characteristics of the aircraft and provides an assessment of aircraft suitability.

**Rural and Regional Affairs and Transport Legislation Committee**

ANSWERS TO QUESTIONS ON NOTICE

Supplementary Budget Estimates November 2014

**Agriculture**

**Question:** 85

**Division/Agency:** Exports Division

**Topic:** Assessing animals conditions

**Proof Hansard page:** 88

**Senator RHIANNON asked:**

**Senator RHIANNON:** Has the department ruled out excessive heat exposure in some way other than the aircraft? Were the animals left on the tarmac from time, for instance?

**Dr J Cupit:** No, we are not aware of that. In our investigations we assess the animals and the condition of the animals from the documentation from when the animals were prepared for export right through to the actual export. All of that is included in our investigations to make sure that there were no hiccups in terms of animals being left on the tarmac or anything. I am not aware of that being the case in this particular instance.

**Senator RHIANNON:** Do you need to take it on notice, please, to check it?

**Dr J Cupit:** Yes, we can. As I said that case is still under investigation at the moment.

**Answer:**

This reportable mortality event is still under investigation. The Department of Agriculture does not make specific comment on matters that are under investigation. Once an investigation is complete, the findings will be made public on the department's website.

**Rural and Regional Affairs and Transport Legislation Committee**

ANSWERS TO QUESTIONS ON NOTICE

Supplementary Budget Estimates November 2014

**Agriculture**

**Question:** 86

**Division/Agency:** Exports Division

**Topic:** High-mortality live export flights

**Proof Hansard page:** 88-89

**Senator RHIANNON asked:**

**Senator RHIANNON:** Thank you for the details of the acronym. It would be good to get details of the program. Thank you for taking that on notice. I notice that the Alison Penfold, CEO of the Australian Livestock Exporters' Council, speaking on the ABC described deaths on export cargo planes as rare. Considering you shared with us that there has been four high-mortality live export flights in the past year, do you call that rare, or how would you describe those four high-mortality live export flights in one year?

**Dr J Cupit:** That is a fairly rare occurrence. Basically aeroplanes are actually designed so that they can carry people, cargo and all the rest of it. These are living creatures inside the cargo. They do maintain all of the air packs and everything on a general case, unless there is something very unusual and it is faulty, they are working. That is what they are actually designed to do. So, it is a very rare occurrence to have a mortality event by air. I do not know if I have the number of consignments by air. We could find that out to say whether it is unusual, but I do not think it is very unusual.

**Answer:**

This is a very unusual occurrence given that during the period of 1 January 2010 to 30 October 2014 out of a total of 1147 air consignments, there were only four reportable mortality events.

Prior to that, there was one reportable mortality event in 2008, and one event in 2009 for livestock exported by air.

**Question:** 86 (continued)

Section 6.5 Definitions, of the Australian Standards for the Export of Livestock (Version 2.3) April 2011, defines a reportable level of mortality for livestock transported by air as follows:

In respect of a species, means the percentage listed below or 3 animals, whichever is the greater number of animals:

- (a) sheep and goats: 2 per cent
- (b) cattle and buffalo, voyages  $\geq$  10 days: 1 per cent
- (c) cattle and buffalo, voyages  $<$  10 days: 0.5 per cent
- (d) camelids: 2 per cent
- (e) deer: 2 per cent

**Rural and Regional Affairs and Transport Legislation Committee**

**ANSWERS TO QUESTIONS ON NOTICE**

Supplementary Budget Estimates November 2014

**Agriculture**

**Question: 87**

**Division/Agency:** Exports

**Topic:** Number of investigations involving Livestock Shipping Services (LSS)

**Proof Hansard page:** 90

**Senator RHIANNON asked:**

**Senator RHIANNON:** Isn't Livestock Shipping Services under investigation for serious breaches of regulations at the moment?

**Dr J Cupit:** There are several investigations underway that LSS have been included in.

**Senator RHIANNON:** Does several mean three?

**Dr J Cupit:** Yes, at least three.

**Senator RHIANNON:** Can you take on notice to advise how many there are?

**Dr J Cupit:** I will take it on notice.

**Answer:**

The Department of Agriculture is unable to comment on any investigations which might yet be subject to judicial processes.

**Rural and Regional Affairs and Transport Legislation Committee**

ANSWERS TO QUESTIONS ON NOTICE

Supplementary Budget Estimates November 2014

**Agriculture**

**Question: 88**

**Division/Agency:** Exports Division

**Topic:** Livestock Shipping Services

**Proof Hansard page:** 90

**Senator RHIANNON asked:**

**Senator RHIANNON:** Does Livestock Shipping Services have a current export permit?

**Dr J Cupit:** Export permits are consigned to each consignment. Off the top of my head I do not know if they have any shipments on the water. I do not think so. So they would not actually necessarily have an export permit for anything at this particular point in time. They have an export licence.

**Senator RHIANNON:** I thought that the *Maysora* left Port Adelaide in October.

**Dr J Cupit:** It may have. I do not know. We can check on it.

**Senator RHIANNON:** So that could have an export permit.

**Dr J Cupit:** Yes. If there is a vessel on the water at the moment they are exporting under that would be correct.

**Senator RHIANNON:** Could you take that on notice.

**Answer:**

Livestock Shipping Services (LSS) has an export licence and as with every other livestock exporter requires a permit to export livestock for every consignment.

Yes, the vessel *MV Maysora* departed Port Adelaide in October 2014.

**Rural and Regional Affairs and Transport Legislation Committee**

ANSWERS TO QUESTIONS ON NOTICE

Supplementary Budget Estimates November 2014

**Agriculture**

**Question:** 89

**Division/Agency:** Exports Division

**Topic:** Confirmation of photo of Australian sheep

**Proof Hansard page:** 90

**Senator RIANNON asked:**

**Senator RHIANNON:** It would be helpful for the officials to clarify that. I understood that the reason it was being investigated is that it was recognised that they were Australian sheep.

**Senator BACK:** People may have just taken photographs of them—

**Dr J Cupit:** I am not quite sure whether this is the same image that we have received in our complaint. We can confirm that. But that may or may not be the same image we have been investigating.

**Answer:**

Video material similar to this image is being assessed as part of a complaint received from Animals Australia alleging Exporter Supply Chain Assurance System breaches in Kuwait during the Eid festival in October 2014. The Department of Agriculture is currently reviewing the material to determine its authenticity and whether the material can allow a conclusion to be made that the sheep are Australian. As this matter forms part of a current investigation by the department, specific details of the department's findings will not be made public until the investigation is concluded.

**Rural and Regional Affairs and Transport Legislation Committee**

ANSWERS TO QUESTIONS ON NOTICE

Supplementary Budget Estimates November 2014

**Agriculture**

**Question:** 90

**Division/Agency:** Exports Division

**Topic:** Live export investigations completed by the department

**Proof Hansard page:** 92

**Senator RHIANNON asked:**

**Senator RHIANNON:** How many of the live export investigations completed by the department that have resulted in action being required to be taken are currently under consideration by the investigations unit for referral to the Director of Public Prosecutions?

**Dr J Cupit:** I do not have that information in front of me.

**Dr Grimes:** We would be happy to take that on notice.

**Senator RHIANNON:** That was the question I asked before, and it was said that I could ask it in this session.

**Ms Evans:** I did say that, and I apologise, but we would not have had the information earlier either. We discussed that amongst ourselves, to make sure we would try to have the information. We have not been able to get it to you for this session, but we can take it on notice and get it to you.

**Answer:**

The Department of Agriculture currently has no completed investigations which are yet to be referred to the Commonwealth Director of Public Prosecutions.

**Rural and Regional Affairs and Transport Legislation Committee**

ANSWERS TO QUESTIONS ON NOTICE

Supplementary Budget Estimates November 2014

**Agriculture**

**Question:** 91

**Division/Agency:** Exports Division

**Topic:** Discussion with Saudi Arabia regarding ESCAS

**Proof Hansard page:** 94

**Senator RHIANNON asked:**

**Senator RHIANNON:** Have there been discussions about ESCAS? Dr Cupit used the term 'some form of ESCAS'. Is that what is being discussed with Saudi Arabia—some form of ESCAS?

**Dr Grimes:** I am not in a position to go into those matters at the moment, Senator. I could take them on notice. I do not think I could provide further information on that. I can confirm that there are no specific proposals before the department at the moment to approve the export of animals to Saudi Arabia.

**Senator RHIANNON:** Could you take on notice who is involved in the discussions with Saudi Arabia about some form of ESCAS?

**Dr Grimes:** We can take on notice those matters.

**Answer:**

The Australian Government and the live export industry continue to engage their Saudi Arabian counterparts on livestock market access matters and possible options for the restart of the livestock export trade.

**Rural and Regional Affairs and Transport Legislation Committee**

ANSWERS TO QUESTIONS ON NOTICE

Supplementary Budget Estimates November 2014

**Agriculture**

**Question:** 92

**Division/Agency:** Exports Division

**Topic:** Feedback from Australians regarding the leakage in general during the festival of Eid

**Proof Hansard page:** 95

**Senator BACK asked:**

**Senator BACK:** For the interest of those listening and my colleagues, the term 'leakage' applies to sheep that have in some ways found their way outside the ESCAS-approved supply chain. Did your officer notice any evidence of leakage of sheep from the LSS supply chain in Jordan during the festival of Eid?

**Dr J Cupit:** I am not aware of what his final report says in terms of specifically LSS sheep. He was able to see a very small number of sheep outside supply chains which he suspected were Australian sheep, but they were very small numbers.

**Senator BACK:** In general. Since it is Livestock Shipping Services who are the subject of this vitriolic attack, I would be keen to know, on notice, whether or not, in his final report, that was his evidence. Can you tell us, either directly or anecdotally, what the feedback was from Australians regarding the leakage in general during the festival of Eid from the Middle East countries where there are ESCAS approved facilities? Was it high, low, of concern?

**Answer:**

The Department of Agriculture sent an officer to Jordan to observe feedlot and abattoir operations during the Eid festival in 2014. Overall, while there appeared to be evidence of some movement of sheep outside approved supply chains, processes and procedures observed appeared to control risk to livestock.

Leakage during the 2014 festival in comparison to the significant numbers of livestock exported to these countries in preparation for the Eid festival would be considered low.

Allegations by third parties and self-reported incidents by exporters relating to movement of sheep outside approved supply chains during Eid in 2014 indicate significantly lower numbers of livestock compared to numbers of sheep outside approved supply chains during Eid 2013. These current allegations are the subject of further review.

**Question:** 92 (continued)

The increase of self-reporting by exporters during Eid in 2014 and more broadly across other markets could be viewed as exporters are taking greater control of their supply chains, managing risks more efficiently and taking quicker action on matters of concern.

**Rural and Regional Affairs and Transport Legislation Committee**

ANSWERS TO QUESTIONS ON NOTICE

Supplementary Budget Estimates November 2014

**Agriculture**

**Question:** 93

**Division/Agency:** Exports Division

**Topic:** Closed-loop facility in Jordan

**Proof Hansard page:** 95

**Senator BACK asked:**

**Senator BACK:** I think that is evidence of Australia's influence in improving animal welfare standards. As I understand it, that particular company, LSS, operates only one closed-loop facility in Jordan, and that is in an area controlled by their Ministry of Agriculture's Custom Directorate Free Zone Authority. Is that your understanding as well?

**Dr J Cupit:** I would have to take that on notice.

**Answer:**

Livestock Shipping Services' (LSS) importer operates a closed-loop comprising of two feedlots and an abattoir facility in the same area and this is an area controlled by the Custom Directorate Free Zone Authority in Jordan.

**Rural and Regional Affairs and Transport Legislation Committee**

ANSWERS TO QUESTIONS ON NOTICE

Supplementary Budget Estimates November 2014

**Agriculture**

**Question:** 94

**Division/Agency:** Exports Division

**Topic:** Ismailia reopen date

**Proof Hansard page:** 95-96

**Senator BACK asked:**

**Senator BACK:** The last thing I want to ask specifically about Livestock Shipping Services is its parent company Hijazi and Ghosheh, who operate the Ismailia abattoir in Egypt. We all know that that was the subject, I would say, of spurious allegations on behalf of the Dr Wahad that I have engaged previously with Mr Glyde on this. But as a result of joint investigation by the department and their Egyptian equivalents. Ismailia was reopened—when?—about 12 months ago?

**Dr J Cupit:** I would have to take them on notice on the exact date on when it was opened again.

**Answer:**

The first livestock consignment for export to an Exporter Supply Chain Assurance System facility in Egypt, including the Ismailia abattoir, was approved on 19 June 2014.

**Rural and Regional Affairs and Transport Legislation Committee**

ANSWERS TO QUESTIONS ON NOTICE

Supplementary Budget Estimates November 2014

**Agriculture**

**Question:** 95

**Division/Agency:** Exports Division

**Topic:** Any abuses occurred since Ismailia abattoir was reopened

**Proof Hansard page:** 96

**Senator BACK asked:**

**Senator BACK:** I would be very, very keen, as I am sure the committee would be keen to learn, what if any abuses have occurred in that time or since that Ismailia abattoir was reopened?

**Dr J Cupit:** Again, I would have to take that on notice.

**Answer:**

No reports of Exporter Supply Chain Assurance System non-compliance have been reported to the Department of Agriculture at the Ismailia abattoir since June 2014.

**Rural and Regional Affairs and Transport Legislation Committee**

ANSWERS TO QUESTIONS ON NOTICE

Supplementary Budget Estimates November 2014

**Agriculture**

**Question:** 96

**Division/Agency:** Exports Division

**Topic:** Export of Friesian cattle

**Proof Hansard page:** 96

**Senator BACK asked:**

**Senator BACK:** In my experience going back 30 years we have never exported Friesian cattle to the Middle East as feeder cattle or for slaughter. Would you also confirm that to be the case?

**Dr J Cupit:** We do not differentiate what the breed is when we are exporting for feed or slaughter.

**Senator BACK:** You might not but you do record the breed, so I would ask if you would take on notice—I do not want you going back too far; but I do want confirmation that no Friesian cattle have been exported from Australia in, say, the last 12 months. Is that too difficult to establish?

**Dr J Cupit:** I do not think we actually record that data.

**Answer:**

There have been no consignments of breeder livestock destined for the Middle East in the past 12 months.

**Rural and Regional Affairs and Transport Legislation Committee**

ANSWERS TO QUESTIONS ON NOTICE

Supplementary Budget Estimates November 2014

**Agriculture**

**Question:** 97

**Division/Agency:** Exports Division

**Topic:** Registered owner of A1068

**Proof Hansard page:** 97

**Senator BACK asked:**

**CHAIR:** The number A1068 would clearly trace back to the supplier of the beef in Australia?

**Senator BACK:** That is correct.

**CHAIR:** Dr Grimes, you might be able to assist me here. Talking to that producer with this photograph would surely confirm whether or not he or she runs Friesians.

**Dr Grimes:** We could undertake further inquiries.

**CHAIR:** Can you follow up this information with the registered owner of that number—A1068?

**Dr Grimes:** I assume that that would be possible for our investigation officers.

**CHAIR:** We would certainly know who the owner would be on the number and registration system that we have. You clearly have them tagged in Friesians.

**Senator RHIANNON:** Chair, a further question is where the photos were taken, so we are clear on that. Can that be supplied?

**Senator BACK:** Yes, all of that information—

**CHAIR:** The more information, the better.

**Answer:**

As this matter forms part of a current investigation by the Department of Agriculture, specific details of the department's findings will be made public when the relevant investigation is concluded.

**Rural and Regional Affairs and Transport Legislation Committee**

ANSWERS TO QUESTIONS ON NOTICE

Supplementary Budget Estimates November 2014

**Agriculture**

**Question:** 98

**Division/Agency:** Export Division

**Topic:** NLIS tags

**Proof Hansard page:** 98

**Senator HEFFERNAN asked:**

**Senator HEFFERNAN:** I have only just walked in and seen these two papers. Obviously they are either Friesian or Friesian cross; they look a bit heavy for deadset Friesians. Have we changed over from manual reading to electronic?

**Dr J Cupit:** In ear tags on cattle exports? No, we rely on the exporter to determine which system they want to use. In some markets they use RFID tags. For example—

**Senator HEFFERNAN:** But, for traceability in Australia, do we rely on electronic tags these days?

**Dr J Cupit:** Yes.

**Senator HEFFERNAN:** Where are the electronic tag holes on these?

**Dr J Cupit:** I cannot see any RFID tags in those animals.

**Senator HEFFERNAN:** I think there is something wrong with these photos. You would be aware, and I am very aware, because I fought the battle, that in the Northern Territory from property of birth to the boat you did not need to tag them until—how long ago? Do you remember that, Chris?

**Senator BACK:** 2011.

**Ms Evans:** The senator is right. From my recollection also, it was 2011 that that began.

**Senator HEFFERNAN:** So when were these photos taken?

**Senator BACK:** That is to be established.

**Senator HEFFERNAN:** There is something not ringing right about this.

**Mr Read:** Can we take that on notice? I remember there was an exclusion on NLIS tags in export of live animals for some time, but that may well have changed.

**Question:** 98 (continued)

**Answer:**

The Primary Industries Ministerial Council (PIMC 21, 28 October 2011) agreed to cease exemptions for the Northern Territory and Western Australia from the requirement to tag cattle destined for immediate export from Australia with electronic tags by the end of 2012. This was in line with the recommendations of the National Livestock Identification System (NLIS) (Cattle) Advisory Committee, the SAFEMEAT committee and the Farmer Review to enhance the traceability of cattle.

While the decision was made in 2011, specific state/territory legislation to cease exemptions from the NLIS for cattle from the Northern Territory and Western Australia didn't take effect until 1 January 2013. However, from the time Exporter Supply Chain Assurance System came into effect in July 2011, exporters universally utilised NLIS RFID tags for traceability for cattle.

**Rural and Regional Affairs and Transport Legislation Committee**

ANSWERS TO QUESTIONS ON NOTICE

Supplementary Budget Estimates November 2014

**Agriculture**

**Question:** 99

**Division/Agency:** Exports Division

**Topic:** Trucking of Australian cattle from Israel to Gaza

**Proof Hansard page:** 101

**Senator RIANNON asked:**

**Senator RHIANNON:** I have a question for

**Dr Grimes.** Is it accurate that there is a departmental direction prohibiting exporters from allowing the trucking of Australian cattle from Israel to Gaza, and has it been in place since February 2014?

**Dr Grimes:** I might hand over to Dr Cupit on that matter.

**Dr J Cupit:** The suspension that we had in place was for the movement of cattle from Israel to Gaza. That is correct. I will have to have to check the date but I think it was since about February.

**Answer:**

Effective 26 February 2014, a condition was placed on Livestock Shipping Services Pty Ltd (LSS) by the Department of Agriculture to temporarily suspend the supply and transport of livestock to the Gaza Municipality Slaughter House for a number of consignments.

Effective 6 March 2014, a condition was placed on LSS to temporarily suspend the supply and transport of livestock to all Exporter Supply Chain Assurance System approved feedlots in Gaza from a number of consignments of livestock exported to Israel.

**Rural and Regional Affairs and Transport Legislation Committee**

ANSWERS TO QUESTIONS ON NOTICE

Supplementary Budget Estimates November 2014

**Agriculture**

**Question:** 100

**Division/Agency:** Exports Division

**Topic:** Transport voyage

**Proof Hansard page:** Written

**Senator RHIANNON asked:**

1. Please provide following details for each air transport voyage for the past 5 years:
  - a. Species exported
  - b. Mortalities of each of those species
  - c. Departure airport
  - d. Destination airport
  - e. Purpose of export (ie breeding or slaughter)
  - f. Type of aircraft used

**Answer:**

Between 1 January 2010 and 20 November 2014 there have been 1422 individual livestock species consignments exported from Australia by air. For each year the Department of Agriculture is able to provide details for each air transport voyage including; species exported, mortalities of each of those species, departure airport and purpose of export (ie breeding or slaughter). The detail for each air transport voyage for the past five years is provided in the attached summary document.

The department does not record the destination airports, but is able to provide the destination countries (included in the attached summary document).

The type of aircraft used is only available for 2013 and 2014.

ANSWERS TO QUESTIONS ON NOTICE

Supplementary Budget Estimates November 2014

**Agriculture**

**Question:** 101

**Division/Agency:** Exports Division

**Topic:** Australian Exports to Bahrain

**Proof Hansard page:** Written

**Senator EDWARDS asked:**

1. How has the decision to reinstate exports to Bahrain impacted on the value and quantity of live exports in the past reporting season?
2. How many infractions under ESCAS of Australian exports after investigation in the past year?
3. What action has been taken, or is likely to be taken, in order to remedy this?

**Answer:**

1. Live animal exports to Bahrain resumed in March 2014. Since the resumption of trade, 235 225 slaughter sheep in 12 consignments have been exported (as at 2 December 2014).
2. None.
3. See response to Question 2.
