

Senate Standing Committee on Economics
ANSWERS TO QUESTIONS ON NOTICE
Industry, Innovation, Science, Research and Tertiary Education Portfolio
Additional Estimates Hearing 2011-12
15 February 2012

AGENCY/DEPARTMENT: DEPARTMENT OF INDUSTRY, INNOVATION, SCIENCE, RESEARCH AND TERTIARY EDUCATION

TOPIC: Australian manufactured cars

REFERENCE: Written Question – Senator Bushby

QUESTION No.: AI-132

Of all the cars presently manufactured in Australia, which has the highest percentage of Australian content – and what is that percentage?

ANSWER

The Department does not publish data on the local content of individual Australian-made vehicles as this is commercial-in-confidence. Further, any policies or programs specifically aimed at increasing the local content of Australian-made vehicles would be counter to our international trade commitments.
