**SENATE LEGISLATION COMMITTEE – QUESTIONS ON NOTICE
2003-2004 ADDITIONAL ESTIMATES HEARING**

Outcome: CSIRO
Output Group: - CSIRO

DEST Question No. E775_04

Senator Carr asked on 18 February 2004, EWRE Hansard page 99.

Question:

Were the gene sequences of the original isolate the same as those from the isolates collected from the Ginninderra field station or elsewhere in the Canberra region?

Answer:

Wheat Streak Mosaic Virus

The original isolates were collected from the Ginninderra Field Station and CSIRO Black Mountain site on the same day and the gene sequences were the same.
