Question:

Conferences

There has been a significant increase in the number of conference papers delivered by CSIRO staff. Can you tell me how many of these papers were delivered to international conferences and how many to Australian audiences?

How many presentations by attendees do you expect to be published (other than as conference abstracts or the like)?

Answer:

CSIRO has provided the following response.

Conferences

Fifty seven percent of conference papers delivered by CSIRO staff in the 2005 calendar year were to conferences held in Australia.

CSIRO does not track the post conference publishing of conference presentation topics.
