Question

SES Funding – Non-government Schools

For each non-government school with a 2005-2008 SES score greater than 105, please provide the data used to calculate the SES score. That is, please provide a spreadsheet in excel format with the school number, the name of the school, the location, postcode, state, federal electorate, an indication of whether it is an independent private school or Catholic systemic, and the identifying numbers of each of the census code districts in which students live and for each of these census code districts the number of students who reside in it and the SES score of that census code district?

Answer

The spreadsheet at [Attachment A](#) provides school number, name of the school, location, postcode, state, federal electorate for independent and Catholic systemic schools with SES scores above 105.

SES scores for all Census Collection Districts (CDs) in Australia used for the 2005-2008 funding quadrennium are publicly available at:

https://schools.dest.gov.au/ssp/help/html/ses/funding_05_08/arrangements_nongov.html

The information on the CDs in which students live is derived from student residential address data collected by the Department under a Privacy Notice to parents and is protected under the *Privacy Act 1988*. At the time of collecting this information, the Department advised parents that their addresses would only be used for the purposes of determining an SES score for the school.

Release of this information would also present an unacceptable risk of identifying an individual child as over 57 per cent of independent non-government schools draw an average of three or fewer students per CD of about 220 households.
