

Senate Standing Committee on Education and Employment - Education

**QUESTIONS ON NOTICE
Additional Estimates 2013-2014**

Outcome 2 - Schools and Youth

Department of Education Question No. ED0264_14

Senator Carr provided in writing.

Question

Schools funding agreement

For each State and Territory – whether or not a school funding agreement was reached or an offer was made – can the Department complete the attached table, which relates to projections of Government contributions and school funding made under the Better Schools Plan, for each school year between 2014 and 2019, and each related financial year

Answer

Attachments A1 to A3 detail, for the Catholic, Government and Independent sectors respectively, the level of additional funding for the forward estimates over and above 2013 funding levels broken down by growth due to enrolment, indexation and additional funding.

The information provided relates to years 2014 – 2017. School funding beyond 2017 is subject to consultation with states, territories and the non-government schooling sector.

As school funding projections are calculated on a calendar year basis, these tables which further break down funding growth into component factors are not able to be provided by financial year.
