

Senate Standing Committee on Education and Employment - Education

**QUESTIONS ON NOTICE
Additional Estimates 2013-2014**

Cross Portfolio

Department of Education Question No. ED0326_14

Senator Ludwig provided in writing.

Question

Shared resources following MOG changes

1. Following the Machinery of Government changes does the department share any goods/services/accommodation with other departments? 2. What resources/services does the department share with other departments; are there plans to cease sharing the sharing of these resources/services? 3. What were the costs to the department prior to the Machinery of Government changes for these shared resources? What are the estimated costs after the ceasing of shared resource arrangements?

Answer

Following the Machinery of Government changes the Department of Education will be sharing a broad range of corporate services with the Department of Employment. The services shared (with examples) are outlined below:

- Information and Communication Technology (desktop and infrastructure)
- finance (accounts payable, procurement)
- human resources (payroll and recruitment)
- workplace services (accommodation and security)
- information services (records management and library)
- communication services (website design and publishing)
- assurance (fraud investigations, continuity, IT security)

Some accommodation will be shared with the Department of the Prime Minister and Cabinet and the Department of Social Services. The sharing of accommodation will be partly transitional as the new MOG arrangements are implemented, with some accommodation shared in the longer term.

The scope and level of services, and therefore their costs, to the sharing departments remain the same as before the MOG changes in September 2013.
