

**Senate Standing Committee on Education and Employment - Education**

**QUESTIONS ON NOTICE  
Additional Estimates 2013-2014**

**Outcome 2 - Schools and Youth**

**Department of Education Question No. ED0453\_14**

**Senator O'Neill asked on 26 February 2014, Hansard page 101**

**Question**

***Trade Training Centres - round 5***

Senator O'NEILL: Despite this significant investment over five rounds, I am sure there is still a number of schools around the country that do not have trade training centres or actually are not part of a cluster of schools that has a trade training centre servicing a particular area. Could we have a list of such schools or school regions that are currently unserved in terms of trade training options? Mr Cook: I am happy to take it on notice. Senator O'NEILL: If possible, by electorate, just a geoshot. Mr Cook: When you say 'unserved' do you mean no children at a school are accessing a centre? Senator O'NEILL: Yes. Where there are schools that are not able to access either directly in the school or in a site created by a cluster of schools seeking the funding. Mr Cook: Happy to take that on notice.

**Answer**

Attachment A lists the schools eligible to apply for funding under Round Five (Phase One) of the Trade Training Centres in Schools Program that had not been approved for funding as at 17 December 2013.

These schools may have existing trade training arrangements in place, for example through local agreements to access Trade Training Centres or by partnering with existing Registered Training Organisations.

**Eligible schools that have not received funding under the Trade Training Centres in Schools Program**
