DEST Question No. E284_05

Senator Carr provided in writing.

Question:

Departmental IT systems: please provide information on costs incurred in the introduction of new systems and other major changes and developments.

Answer:

Departmental IT Systems

The cost of introducing new IT systems and major enhancements varies from year to year because it is demand-driven.

The total cost associated with the development, implementation and enhancement of IT systems for 2003/2004 is $15.9 million and for 2004/2005 is $15.2 million.

This does not include IT development funded from major new policy initiatives such as the Higher Education Reform.
