DEEWR Question No. EW0768_12

Senator Abetz asked on 19 October 2011 , Hansard page 85

Question

Targets of reducing the incidence of work related deaths

Senator ABETZ: The national strategy sets the targets of reducing the incidence of work related deaths by at least 20 per cent and reducing the incidence of workplace injury by at least 40 per cent. How are we tracking on that?.... Senator ABETZ: Are you able to tell us how close we are to it? If we were to draw the line now, would we be able to say we had reduced our workplace related deaths by 20 per cent? Mr Hoy: Amanda Grey, my colleague, who knows all about this, will answer your questions. Ms Grey: Sorry, I do not have it, but I am more than happy to take it on notice because we have fact sheets that can provide that information.

Answer

Safe Work Australia has provided the following response.

This QoN is answered by the attached fact sheet.
