

Senate Finance and Public Administration Legislation Committee
Additional Estimates Hearing – February 2010
ANSWER TO QUESTION ON NOTICE

Topic: Solar Schools – Funding Received

Question reference number: CC72

Type of Question: Hansard ECA page 111, 9 February 2010

Date set by the committee for the return of answer: 26 March 2010

Number of Pages: 28

Question: (Senator Troeth)

Senator TROETH—Late last year that program was suspended until July 2010?

Mr Aaron Hughes—That is correct.

Senator TROETH—It was suspended without notice and simply relayed to sections of the solar industry by email, with a change on the website. Up till that point how many schools had received funding?

Mr Aaron Hughes—Up to the point of the announcement?

Senator TROETH—Yes.

Mr Aaron Hughes—I would have to take that on notice.

Mr Thompson—When the program was temporarily suspended on 15 October last year the department had already paid or committed to pay claims to schools totalling \$44.53 million.

Senator TROETH—Could you also give me a list of which schools up to that point, not necessarily now, but perhaps on notice?

Mr Aaron Hughes—Yes.

Senator TROETH—And in which electorates they would be?

Answer:

By 15 October 2009, the Department of the Environment, Water, Heritage and the Arts had paid 652 claims to individual schools. In addition, funding for a further 1,128 schools had been approved under cooperative delivery arrangements with state government education agencies.

Details of the 652 individual schools whose claims had been paid, and their electorates, are included in the below table.

Similar details are also provided for 13 of the 1,128 schools which had been approved under cooperative delivery arrangements with state government education agencies. Installations for these 13 Queensland government schools were completed well before other cooperative arrangements with states were finalised. Each of these 13 schools is identified with an asterisk in the below table.

Under such cooperative arrangements, National Solar Schools Program funding is paid initially to the state government education agencies. For the remainder of those 1,128 schools, information defining precisely how many of those schools had received their funding by 15 October 2009, and how many received their funding after that date will not be available until final reports are received from the state agencies in the next few months.
