Senate Finance and Public Administration Legislation Committee ANSWERS TO QUESTIONS ON NOTICE BUDGET ESTIMATES 2011-2012

Finance and Deregulation Portfolio

Department/Agency: Australian Electoral Commission

Outcome/Program: 1.2 - Deliverables

Topic: Industrial Elections

Senator: Ryan

Question reference numbers: F117

Type of question: Written

Date set by the committee for the return of answer: Friday, 8 July 2011

Number of pages: 38

Question:

For the year 2009-10:

- a) How many industrial elections were conducted?
- b) Can the Commission provide a list of the organisations for which industrial elections were conducted?
- c) How many of these industrial elections were for unions?
- d) How many of these industrial elections were for other bodies?
- e) For each industrial election conducted in 2009-10, what was:
- f) The name of the organisation;
- g) The number of eligible voters in the election;
- h) The number of votes cast;
- i) The number of valid votes cast;
- j) The cost of the election?
 - Estimating outcomes for the years 2010-11 and 2011-12:
- k) How many industrial elections are estimated to be conducted?
- 1) Can the Commission provide a list of the organisations for which industrial elections have been or are likely to be conducted?
- m) How many of these industrial elections are for unions?
- n) How many of these industrial elections are for other bodies?
- o) For each industrial election conducted what are the likely total costs of the election?

Answer:

- a) 265 elections for 61 organisations. Some organisations required more than one election.
- b) Yes. The Industrial Organisations registered under the *Fair Work (Registered Organisations) Act 2009* for whom the Australian Electoral Commission (AEC) conducted industrial elections in 2009-10 are listed in Attachment A.
- c) 180 for unions.

- d) 85 for employer organisations.
- e) (No answer required)
- f) The names of the organisations for which an industrial election was conducted by the AEC in 2009-10 are listed in Attachment B.
- g) The AEC only captures voter numbers where the election is contested. These numbers are shown as Ballot Papers Issued in Attachment B.
- h) The numbers are shown as Ballot Papers Returned in Attachment B.
- i) The AEC is unable to provide this level of detail as it is not kept in an aggregated form. Its compilation would involve a significant diversion of resources. This number would be the number shown for h) above, less any informal ballot papers returned to the count.
- j) The AEC is not able to provide a breakdown of all the costs related to individual industrial elections; however the AEC does record direct costs associated with the conduct of these elections, shown as Direct Costs in Attachment B. Direct costs cover expenditure for such components as temporary staffing hours, printing, postage, and mailing house costs. The AEC practice has not been to attribute staff hours or related on-costs to individual industrial elections.
- k) It is estimated that the AEC will conduct 270 industrial elections in 2010-11. For 2011-12 there are 226 elections scheduled where the terms of office should expire. Based on previous trends, the AEC anticipates that there will be approximately 100 other industrial elections in 2011-12 which result from casual vacancies.
- l) <u>Attachment C</u> lists the organisations for which industrial elections have been conducted in 2010-11 to date. <u>Attachment D</u> lists the organisations for which industrial elections are likely to be conducted in 2011-12.
- m) 173 union elections of the 270 elections for 2010-11. 141 of the 226 elections scheduled in 2011-12 are for unions.
- n) 82 employer organisation elections of the 270 elections for 2010-11. Of the 226 scheduled elections in 2011-12, 85 are for employer organisations.
- o) For elections completed to date in 2010-11, the likely costs are included in <u>Attachment E</u>. Direct costs for 2011-12 are expected to increase above the 2010-11 costs due to increased number of elections and increases in prices for inputs.
