

**Senate Finance and Public Administration Legislation Committee
—Budget Estimates Hearing—May 2013**

Answers to Questions on Notice

Parliamentary departments, Department of Parliamentary Services

Topic: **Contracts**
 Question: **104**
 Hansard Reference **p42, 27 May 2013**

Date set by the committee for the return of answer: 12 July 2013

Senator PARRY: I am very happy for this to be provided on notice. On page 3, under 'Budget Situation', it says, 'given that over 80 per cent of the department's expenditure directly supports parliamentary running costs'. You go into a lot of the contracts. Is it possible that we could have a table of contracts; the commencement date, when they were originally established; the length of the contract or the conclusion date; whether there were extensions; and whether we can exit the contracts—at which point; what the earliest exit point of a contract would be? That would be very useful for the committee to know.

Answer

The following contracts were in place as at 31 March 2013. The majority of contracts have termination options for convenience or for default or breach—where termination clauses are not exercised, the earliest exit date is equivalent to the expiry date in the table.
