If yes, please explain and provide copies of any advice that has been issue.

Does the department/agency monitor usage of social media?

- If yes, provide details of the useage (for example details could include average hours per employee, hours when useage peaks).
- Has there been a change to the department/agency protocols due to staff useage?
- If no, why not? Will the department/agency monitor usage in the future?

Does social media impact on employee productivity? Provide details (details could include increased internet usage in general or increased internet usage in standard business hours)

Answer:

There have been no changes to social media policy within the Department since May 2012.

The Department monitors usage of websites but does not specifically monitor usage of social media websites as they are incorporated in overall internet usage statistics.

There is no evidence to support that social media usage in the Department impacts on overall employee productivity.
