

SENATE STANDING COMMITTEE ON LEGAL AND CONSTITUTIONAL AFFAIRS  
ATTORNEY-GENERAL'S DEPARTMENT

**Output: Information and Knowledge Services**

**Question No. 16**

**Senator Ludwig asked the following question at the hearing on 13 February 2007:**

Re QoN 9 from October Estimates: Faulty hyperlink for the 2004–05 Annual Report: How did the fault occur?

**The answer to the honourable senator's question is as follows:**

The 2004–05 Annual Report link was broken during an update generated by the third party software used to manage the Department's websites. The software incorrectly used web addresses designed for use on internal departmental systems. For security reasons such addresses cannot be accessed from outside the department.

The fault in the software has been corrected and the current AGD internet site does not have this problem.
