**ADDITIONAL ESTIMATES - 25 FEBRUARY 2014**

**IMMIGRATION AND BORDER PROTECTION PORTFOLIO**

**(AE14/076) PROGRAMME – 4.3: Offshore Asylum Seeker Management**

Senator Carr (L&CA98) asked:

Mr M Cahill: For that same period, \$19.6 million. Those three aircraft are used for not only supporting transfer operations and bridging visa releases throughout the network on the onshore network but transfer operations to Nauru and Manus as well as any return operations to, for example, Sri Lanka or Vietnam.

Senator KIM CARR: I see. Is it the case that the aircraft's movements are tracked by the global flight tracking organisation FlightAware?

Mr M Cahill: I am not aware of the detail of that, sorry. I would have to take that on notice.

*Answer:*

Flights undertaken by the two A319 aircraft operated by Skytraders are not tracked by FlightAware by virtue of a request from that airline to FlightAware.

The flights undertaken by the Our Airline 737-300 contracted through Adagold Aviation can be tracked through the global flight tracking organisation FlightAware.
