Senator Evans asked:

Provide the indicators that are in the SRAs

Answer:

The details of the header agreements and schedules for the 80 SRAs, for which community agreement for public release has been obtained, are attached. The schedules identify performance indicators and the baseline data that will be sourced for each SRA.

To date only 1 community has specifically declined permission to release their SRA publicly.

We are negotiating with a further 36 communities for agreement to the public release of their SRA(s).

We are currently reviewing the baseline data and performance information in all SRAs. The initial baseline data and performance information may change as a result of these reviews.
