

Could the Board advise on the following titles and whether it considers its original ruling is consistent with the guidelines? Where it appears a title was not submitted for classification, please advise as to how Board will address this. **[would need to be taken on notice]**. [These are the magazines that the Board now have (per Julie Gale, Kids Free 2B Kids) and have been asked to audit. Of the 22 titles, it appears 21 have been categorized incorrectly because they contain advertisements or content which deserve higher classification/ Refused Classification or are magazines not listed on Database - therefore not submitted for classification].
