

SENATE STANDING COMMITTEE ON LEGAL AND CONSTITUTIONAL AFFAIRS
AUSTRALIAN CRIME COMMISSION

Question No. 22

Senator Macdonald asked the following question at the hearing on 18 November 2013:

CHAIR: ... Would you have figures immediately available for when I was around, which I think was in the 2007-08 year? What was the staffing back in those days?

Mr P Williams: Again, we get into the matter of what measure—

CHAIR: Use FTEs. I think that is the easiest way of getting a comparison.

Mr P Williams: Yes. It may actually be easier to take that one of FTEs on notice. The numbers I have do not go back to the period you have just requested.

CHAIR: Give me what you have and get the rest on notice, would you?

Mr P Williams: Sure. In 2011-12, our FTE was 622. That comprises Australian Public Service staff as well as contractors and secondees. At the end of 2012-13 it was 597 FTEs, and that also includes a mix of contractors and secondees.

The answer to the honourable senator's question is as follows:

Table 1: FTE including contractors and secondees as at 30 June each year

	2008	2009	2010	2011	2012	2013
FTE	670	547	601	689	622	597

Note: Contractors have been counted as 1 FTE even though their contribution as at 30 June each year may have only been a fraction of a FTE.
