

SENATE RURAL AND REGIONAL AFFAIRS AND TRANSPORT LEGISLATION COMMITTEE

BUDGET ESTIMATES, 25, 26 MAY 2005 - ANSWERS TO QUESTIONS ON NOTICE

Department of Agriculture, Fisheries and Forestry

Biosecurity Australia

Question: BA 01

Topic: MOU with DAFF and Biosecurity Australia

Hansard Page: 84

Senator O'Brien asked:

Is there a memorandum of agreement between Biosecurity Australia and the department?

Mr Cahill—We have a draft memorandum of understanding which relates to services that the department will continue to provide to Biosecurity Australia, principally management services, payroll, some accounting services and other things. We have not finalised that yet, but that will be in an MOU between me and the secretary of the department.

Senator O'BRIEN—Can this committee have a copy when it is finalised?

Answer:

The Memorandum of Understanding between the Department of Agriculture, Fisheries and Forestry and Biosecurity Australia for the provision of management services is attached.

Australian Government

Department of Agriculture, Fisheries and Forestry

SECRETARY

30 June 2005

Chief Executive
Biosecurity Australia
GPO Box 858
Canberra ACT 2601

PROVISION OF MANAGEMENT SERVICES

I refer to your memorandum of 29 June 2005 regarding the provision of management services to Biosecurity Australia following its establishment as a prescribed Agency.

I confirm that the Department will continue to provide management services to Biosecurity Australia (BA) on the basis outlined in your letter and attachments.

The cost of these services will be met by BA in accordance with current arrangements for determining departmental cost allocations. This will include, where appropriate, the actual cost or proportion of costs of specified services, in particular those services that may be outsourced.

I agree that arrangements for the continuing provision of management services to BA should be subject to regular monitoring and review by our officers. I suggest that a more formal review occur in the context of the 2006/07 budget unless otherwise agreed between us.

Joanna Hewitt

Australian Government

Biosecurity Australia

Secretary
Department of Agriculture Fisheries & Forestry
GPO Box 858
CANBERRA ACT 2601

Provision of Management Services to Biosecurity Australia

This memorandum is to formalise understandings between the Department of Agriculture, Fisheries and Forestry (the Department) and Biosecurity Australia (BA) in relation to the continuing provision of management services to BA following its establishment as a prescribed Agency.

These issues have been the subject of earlier discussions and informal understandings between us and also with the Department's Chief Operating Officer. The basis of these understandings is that management services will continue to be provided to BA by the Department on the same basis as services were provided and costed prior to BA becoming a prescribed Agency.

Accordingly, the services provided will continue to be delivered through existing departmental resources as well as through current contracted and outsourced arrangements. The cost of these services will be consistent with current departmental cost allocation processes. Additionally, following agreement between myself and the Executive Director of AQIS, some strategic financial services and advice may be provided to BA by AQIS as required with AQIS recovering relevant costs directly from BA. This is intended to take advantage of AQIS's experience and expertise in financial reporting and management.

The provision of services may need to be adapted where necessary to take into account BA's independent legal obligations arising from the *Financial Management and Accountability Act 1997* and associated administrative and other responsibilities. This also recognises that BA has its own Chief Executive and Chief Finance Officer responsibilities.

Following discussions between our staff, the nature of the services to be provided to BA is outlined in the attached schedules. These schedules are intended to be an indicative rather than exhaustive list of services and may be modified with agreement in the light of operating experience. Schedule A summarises the range of services to be provided by the Department based on an agreed allocation of departmental costs. The estimated cost of these services from 11 February 2005 (when the financial separation of BA and the Department occurred) to 30 June 2005 is estimated to be \$715,283. The cost of these services for 2005/06 will be determined as part of the finalisation of internal BA and departmental budgets. Schedule B summarises services that will be charged on the basis of the actual costs incurred (eg for contracted payroll services) or on the basis of an agreed proportion of total departmental costs.

The arrangements proposed will ensure the continuity of management services to BA in a cost effective way and maintain existing economies of scale. I expect the provision of these services to be subject to continuing review by the Department and BA. I envisage that the arrangements would continue to be in place during the full transition of BA to a newly independent prescribed Agency. I expect that management services will continue to be provided in their current form for a period of at least 12-18 months unless otherwise agreed. The option would remain to extend the provision of these services for a longer period as agreed.

I would be grateful to have your confirmation of these arrangements.

John Cahill
Chief Executive

29 June 2005

Atts.

Schedule A**Management Services to be provided to Biosecurity Australia by the Department of Agriculture, Fisheries and Forestry (DAFF)**

Amounts to be billed based on agreed allocation of Departmental costs
