

My input regarding Young People Stuck in Aged Care Facilities is as follows:

1. It's inappropriate;
2. It's an unproductive use and waste of federal funds;
3. It's unproductive in general;
4. It would be cheaper and more productive to provide Individualised funding to support community living (reduce health problems, depression etc);
5. People living in the community can become productive members (supported employment);
6. People have the basic human right to live in the community;

Regards,
Ms Tanya Hornberg
