

To Whom It May Concern
My name is Janet O'ellatly
My Husband is Barry O'ellatly he is Andrew
Stepson.

For 12 years we have been looking after
he is 45 years
old on 13th February.

Andrew has A.B.I

He started off in Bendigo Hospital
where he was on life support for
3 weeks. He was in a coma for
about 4 weeks. He was then taken
across to Ann Cawdel. another part of
the Hospital. He kept getting out once
he regained conscious

The Social worker & his sister took him
to Royal Gallop without my knowing
From there he was taken to Quendiff
manor till his money ran out.
He was improving there. They had a
buddy system

Andrew took his sons into the sea
swimming. This is a list of what
Andrew could do. He would talk
help get lunch. Then we would
go shopping

They shifted him to Selby Court.
which was a hospis.

all they did there was get him up
have breakfast sit him in front
of TV. So Andrew slept. Wake up
lunch sit again no activity at
all

Andrew has had no Rehab.

Then they moved him to Abont Park
no activity there.

Then to Royal Talbot where we
thought he would be active all
day but no again. He would
go for a walk in morning
or walk on walking machine
or ride a bike for $\frac{1}{2}$ an hour

They then put him in the Nursing
home at Royal Talbot.

I got very sick and asked for him
to be brought back to Bendigo
Was told he was in a Nursing Home
& was alright. We went to our
member of Parliament Bob Cameron
had him home in 3 weeks

Andrew is in Simpkin house
But not the place for Andrew
he is in with Alzheimers & Dementia
As he has long term memory
he has to be in lock up. He has
been there for 6 years. He has learnt
their ways. He waits to be fed
as he see the others getting fed
He ~~don't~~ talk as only the Staff
talk

He waits to be dressed. Sleeps
all day when he can get away
with it. The staff are wonderful
we asked them to put him
outside as much as they can
What we would like for Andrew
& others is Rehab and to be
with people his own age.
He needs to be with people
who are active & mobile

Thanking you
