

To Senators on the Senate Select Committee on Climate Policy,

Surely Australia, one of the richest nations in the world, is in a position to lead on Climate Policy by adopting a position that will set a high standard for others. We can afford to make sacrifices to get this right.

Please show polluters that they must change - not be paid to continue polluting.

Logging of Australian native forests must stop, Now.

Here's Australia's chance to lead the world. Grab it.

Name: Betty Haywood
