

Dear Senators of the Australian Parliament,

I look to you to assist strongly to ensure that Australia as a nation and as individuals and as companies takes a strong stance in relation to changing our behaviours and our investments so that we dramatically reduce our contribution to climate change in all its forms. Especially to ensure that Australia adopts aggressive carbon reduction targets.

I know that the world is a difficult place but it behoves us, Australia and each Australian, to take a strong lead.

Thank you and I look forward to seeing the results of your deliberations and modifications of the currently inadequate legislation proposed.

Regards,

Charles Balnaves
