

Keeping it beautiful

Karen Rigby (above) and Mrs Diccoco (right) have a beautiful world in common: Fraser Island. Karen is the owner of a property on the world heritage-listed island, Mrs Diccoco is a regular visitor to the magical, dingo-dotted sand spit of sand spits. And what do they do when they visit their favourite place in the world? Well, clean up rubbish, as it happens. Both women are photographed with their respective hauls from Fraser Island beaches and beauty spots during their most recent visits.
