Re: nuclear waste dump at Muckaty

To Minister Martin Ferguson

We want you to know that all of the Muckaty traditional owners from the Muckaty Land Trust who have their dreaming sites along the haulage road and outside of the haulage road are still going against the nuclear waste dump.

People who live in Tennant Creek, Warramungu people, Warlmanpa people and non-indigenous people, they are all against the dump.

NLC nominated the site but didn't consult traditional owners. They can't just ask Ngapa people, they have to ask people from country around that site. Our land is going to be affected and we are talking on behalf of that country.

Some Muckaty traditional owners went to Darwin, Alice Springs, Adelaide, Melbourne, Canberra and Sydney and little places in between to talk to people about the nuclear waste that is going to be resided in 'the middle of nowhere'. But they don't know that people live around there, around Muckaty.

Why don't NLC stop talking to each other secretly and talk to all traditional owners- every group in that Land Trust. It is a Land Trust because all of the sacred sites are in there and we are worried about our sites.

In the Muckaty land trust we have Milwayi, Ngapa, Ngarrka, Yapa Yapa and Wirtiku people. They should ask everybody all together, not individual clans.

We want the government to stop and listen to us. Take our word. We say NO!

We want you to write back to us and let us know what is happening with the waste dump.
