SUBMISSION RE URANIUM ENQUIRY

Dear Sir / Madam,

I would like the South Aust.
& Federal govts. to protect unequivocally
the groundwater around mining areas.

This is an extremely serious issue - contamination
of groundwater impacts very adversely on future
generations.

I also call on the N.T. & federal govts. to
facilitate the rehabilitation, lease relinquishment
& incorporation of Jabiluka & Koongarra mineral
leases into Kakadu Nat. Park.

I would expect much improved
monitoring of uranium operations / leaks.
