Inquiry into Recruitment and Training in the Australian Public Service

DFAT staff levels

As at 30 June 2002, DFAT employed 1959 Australia-based staff and 1472 locally engaged staff. As well as in Australia, these staff are working at 85 posts in 71 countries.

Note: The 1853 Australia-based employees identified in the original Submission did not include non-ongoing staff. If it had, the number of Australia-based staff as at 30 June 2001 would have been 1960.
