

Malta

Friday 13th January 2006

Dear Senators,

I am writing this letter on behalf of my brother and myself due the on going discussions about giving the Australian citizenship to the children of parents born in Australia. My mom was born in Melbourne, Australia and left Australia to come and live in Malta when she was only three years old and had to renounce her Australian citizenship unwillingly on her eighteenth birthday due to Maltese laws.

My brother and I were born and bred in Malta and in this letter I would like to tell you why I want to receive the Australian citizenship. It would be such an honour to be part of Australia, being such a great and beautiful country. It would be my greatest pleasure that when I'm older I would go to live in the fantastic country of Australia permanently. Having the Australian citizenship offers many opportunities for the future. Being Australian gives us an identity, because although we are Maltese, having our mother born in Australia gave us an Australian influence, and we could have a true identity, Maltese - Australian.

I Hope that by reading this letter, I gave you enough information why I want to receive the Australian citizenship and I'm sure that all children in this situation would be proud to become Australian. Thankyou for your patience.

Yours Truly,

MURT FALZON and Luke FALZON
