Subject: [Australia's Federal Government] Northern Territory Emergency Indigenous Legislation .

To the NT Emergency Legislation Review Committee, Senators and other worthy recipients ,

I appeal to you to reject this Bill on the grounds that it breaches the Australian Racial Discrimination Act . There is NO excuse for this unconscionable conduct .

This is a Kneejerk Reaction Bill [with only one day of review] that takes us back to the 19TH Century with it's disgracefull grab-bag of controls on upstanding Aboriginal People and with the theft of their Land that is so precious to them in their Culture .

There are already Police and Child Protection Services to stop any child from abuse when coupled with the removal of alcohol from these Communities .

How will this Bill help those people afflicted by ADDICTION to OUR introduced alcohol and drugs ??

Governments make a fortune from taxes collected from alcohol [that causes the problems],but can not and WILL NOT provide a decent health Service or Living Conditions .

By disempowering the majority of the population of these Communities we show them the greatest disrespect-It's Shamefull .

The "Little Children are Sacred" report first recomendation on Indigenous Community Consultation Solutions has been ignored .

Opening up these Communities to unlimited white and tourist access will continue this Government's Cultural Genocidal Plans and Tendencies for our First Nation Peoples .

The world will never consider us to be a Nation to be Truly Respected while ever we treat Australia's Aboriginal Tribal People in this disrespectfull, ham fisted and ignorant way .

Shame ,Shame ,Shame!

Yours very Sincerely , Jim Pashley.
